

California State University, Fresno
Department of Biology
presents

"Valley Fever in California"

Dr. Antje Lauer
Associate Professor of Microbiology
California State University, Bakersfield

Friday, 16 March, 2018
3:00 – 4:00 PM
Science 2, room 109

Dr. Lauer and her students are pursuing different projects in microbial ecology, microbial diversity, and microbial symbiosis including:

1. Detection and characterization of *Coccidioides immitis* growth sites in California
2. Coccidioidomycosis in pinnipeds
3. Diversity and function of microorganisms in desert soils
4. Diversity of microcrustaceans in ponds and lakes of the Southern San Joaquin Valley, California
5. Cutaneous antifungal microbiota of amphibians
6. Diversity of bacterial associates of *Watersipora subtorquata*, a highly invasive bryozoan species worldwide

If you need a disability-related accommodation or wheelchair access, please contact Lindasue Garner at the Department of Biology at 278-2001 or e-mail lgarner@csufresno.edu (at least one week prior to event).
