

California State University, Fresno, Department of Biology
Friday Seminar Series Presents

illumina®

Date: Friday, February 1, 2019

Time: 3:00-4:00PM

Location: Science 2, Room 109

Brian Maurer at bmaurer@illumina.com

Agenda:

Illumina will be conducting a presentation to bring awareness about next-generation sequencing (NGS). With its unprecedented throughput, scalability, and speed, NGS enables researchers to study biological systems at a level never before possible. Today's complex genomic research questions demand a depth of information beyond the capacity of traditional DNA sequencing technologies. NGS has filled that gap and become an everyday research tool to address these questions.

Speaker:

Drew Kebbel, Sequencing Specialist, Illumina, Inc.
