

"Living and Working with Adelie Penguins in Antarctica"

Jean Pennycook, M.A.
Independent Researcher
Ainley Penguin Research Group

Friday, September 28, 2018

3:00 – 4:00 PM

Science 2, room 109

For further information:

www.csufresno.edu/biology

The continent of Antarctica is home to approximately 5 million Adelie penguins. These birds live and breed in the harshest possible conditions at the southern extreme of the Earth's marine environment. Our team has been working to unravel the mysteries of these extraordinary birds and the ecosystem that supports them for 3 decades.

Bio: Jean Pennycook is an independent researcher working for the Penguin Research Group of Dr. David Ainley. You can learn more about their work at: <http://penguinscience.com/>.

If you need a disability-related accommodation or wheelchair access, please contact Lindasue Garner at the Department of Biology at 278-2001 or e-mail lgarner@csufresno.edu (at least one week prior to event).
