Job Description

Design, create, and modify Web sites. Analyze user needs to implement Web site content, graphics, performance, and capacity. Integrate Web sites with other computer applications. Convert written, graphic, audio, and video components to compatible Web formats by using software designed to facilitate the creation of Web and multimedia content.

Tasks

- Design, build, or maintain web sites, using authoring or scripting languages, content creation tools, management tools, and digital media.
- Perform or direct web site updates, write, design, or edit web page content.
- Confer with management or development teams to prioritize needs, resolve conflicts, develop content criteria, or choose solutions.
- Back up files from web sites to local directories for instant recovery in case of problems.
- Evaluate code to ensure that it is valid, is properly structured, meets industry standards and is compatible with browsers, devices, or operating systems.
- Maintain understanding of current web technologies or programming practices through continuing education, reading, or participation in professional conferences, workshops, or groups.

Tools & Technology

- Computer servers — Application & Web servers running Linux
- Graphics or photo imaging software — Adobe Systems Adobe After Effects; Adobe Systems Adobe Fireworks; Adobe Systems Adobe Illustrator; Adobe Systems Adobe Photoshop software
- Web platform development software — Hypertext markup language HTML; JavaScript; Dreamweaver or similar; Content management systems like Joomla, Drupal, WordPress

Skills

- Programming — Mostly client-side languages like JavaScript and related libraries such as JQuery
- Design — Analyzing needs and product requirements to create and/or implement a design.
- Complex Problem Solving — Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.
- Record time daily.

Work load & Location:

This position is for a part-time consultant starting with at least 20 hours a week with a path towards more responsibilities and full time employment.

Work can be completed with a flexible schedule that combines on-site collaboration and off-site development.
