

Hello,

Following up with information on the interns we are interested in finding up to 2 interns. If you could pass this along to the Computer Science department that would be great. I am best reached via email or on my mobile number 559-280-7900

We would prefer Junior level or 1<sup>st</sup> year graduate students. The interns will be working with our programmer learning and applying techniques on projects we are developing. The interns will be paid and the internships may lead to continued part time and possibly fulltime employment opportunity with DirectFile.

Business Name : DirectFile

Location : Downtown Fresno

Description : Directfile is a online political disclosure filing service offering candidates and committees running for CA and Federal offices the ability to electronically file required political financial disclosures.

Contact : Lou Feliz [lfeliz@directfile.com](mailto:lfeliz@directfile.com)
