## **XIII. INSTITUTIONAL ACTION**

### **ACKNOWLEDGEMENT OF HAVING READ AND UNDERSTOOD THE BEHAVIORAL RESPONSIBILITIES**

All applicants to professional school from California State University, Fresno must read and acknowledge the following guidelines:

A high standard of academic honesty, social conduct, and personal integrity is expected from all applicants to health professions schools. Many centralized application services include a criminal background check in the process.

Specifically, the American Medical College Application Service (AMCAS) requires you to answer “yes” or “no” to the following “Institutional Action” question:

“Were you ever the recipient of any institutional action by any college or medial school for unacceptable academic performance or conduct violation even though such action may not have interrupted your enrollment or required you to withdraw?”

Further, it states:

“You must answer ‘yes’ even if the action does not appear on or has been deleted from your official transcripts due to institutional policy or personal petition.”

Note that AMCAS does not limit “institutional action” to only those violations on file in the Office of the Dean of Students. Medical schools expect applicants to answer this question truthfully and to be completely forthcoming.

## XVI. FERPA

FERPA, the Family Educational Rights and Privacy Act of 1974, is a federal law that pertains to the release of and access to educational records. The law, also known as the Buckley Amendment, applies to all schools that receive funds under an applicable program of the US Department of Education. Go to [www.ed.gov/policy/gen/guid/fpco](http://www.ed.gov/policy/gen/guid/fpco) to learn more.

Under FERPA, a school may not generally disclose personally identifiable information from an eligible student's education records to a third party unless the eligible student has provided written consent.

However, there are a number of exceptions to FERPA's prohibition against non-consensual disclosure of personally identifiable information from education records. One such exception is that a school can disclose personally identifiable information from an eligible student's education records, without consent, to another school in which the student seeks or intends to enroll.

The sending school may make the disclosure if it has included in its annual notification of rights a statement that it forwards education records in such circumstances. Otherwise, the sending school must make a reasonable attempt to notify the student in advance of making the disclosure, unless the student has initiated the disclosure.

By checking the box to the left, I understand that the HCOP Office and/or the Health Professions Committee at Fresno State may disclose personally identifiable information from my records to schools to which I have applied.
