

Growing Outstanding Teachers of Mathematics (GOTMath)

Robert Noyce Scholarship Program

Partnering to Prepare Outstanding Mathematics Teachers

Funded by NSF Grant: DUE #1852962

Join the outstanding group of Fresno State Mathematics NOYCE scholars!

This prestigious National Science Foundation funded program will provide the following opportunities:

- Receive \$5,000 each semester for three semesters for junior and senior mathematics majors or Single Subject Mathematics Credential students.
- Receive content mentoring from professors and peers, particularly while taking difficult math classes.
- Participate in pedagogical seminars by experienced teachers to become a better teacher.
- Join professional organizations and travel to regional and national conferences.
- Participate in undergraduate research opportunities and present results at conferences.
- Earn an additional stipend for serving as a supplementary instructor, lab facilitator, tutor, or grader for mathematics courses.
- Join summer and year-round programs to develop your teaching skills.

Eligibility Criteria

- Interested in becoming a middle or high school mathematics teacher.
- Minimum 3.0 GPA and good progress in mathematics classes.
- Must be a junior (60 units or higher) or senior math major, or Mathematics Single Subject Credential student.
- Must be a U.S. citizen or a permanent resident.

Program requirements

- Under the NSF service obligation requirement, the scholarship recipient will teach for two years for each year that funding is awarded. Recipient service obligations must be met by obtaining a full-time teaching employment contract in a high need school anywhere in the United States. This service obligation is to be fulfilled within eight years after completing the credential program requirements. Please see more details by visiting the program's [website](#).
- Maintain a 3.0 GPA.
- Participate in program activities until graduation.
- Provide school data of your teaching.

Robert Noyce Scholarship Program

Partnering to Prepare Outstanding Mathematics Teachers

Funded by NSF Grant: DUE #1852962

"After I graduated with my integrated credential and working with the Noyce program I felt like any school that hired me was going to get the best mathematics Teacher "

"Everyone is kind of like, a group together and we're all like working through it together and the professors and everything are really helpful. It's a community"

"I feel that I and my fellow students in this cohort have been lucky about how we assisted and helped each other through this entire process"

"We have meetings together every other week where we can debrief about our struggles in class and our successes. It is so helpful "

Scholarship up to **\$15,000**
for **juniors** and **seniors** who are majoring in
Mathematics and **Mathematics SS Credential** at
California State University, Fresno
