

Summer Academy in Science, Technology, Engineering, & Mathematics, 2026

Monday, June 22 - Friday, June 26, 2026 8:00 am-3:00 pm

for Elementary and Middle School Students

- Have a fun-filled learning experience through challenging tasks in an enjoyable environment.
- Engage in Science, Technology, Engineering, and Mathematics (STEM) activities through hands on projects and collaborative activities.
- Reflect on the way you think and feel about learning.
- Learn to use dynamic mathematics software and other visual creation software to explore STEM concepts.
- Improve your reasoning and thinking skills.
- Earn California State University, Fresno Certificate of Accomplishment.
- Meet new friends, expert teachers and university professors at Fresno State.

Build roller coasters and explore *Kinetic and Potential Energy*

Elementary school STEM concepts

Build models for scientific exploration of the concepts of energy suitable for ages 9-12. Learn key mathematical concepts such as shapes, dimensions, measurements, angles, area, and volume. Investigate 3D objects and explore concepts through hands-on projects, activities, real life problems, and the use of technology, science and engineering. Appropriate for grades 4-7.

Middle school STEM concepts

Build models for scientific exploration of the concepts of wind energy suitable for ages 12- 14. Learn key mathematical concepts such as mass, velocity, ratio, proportions, area, volume, and surface area, through hands- on projects and activities. Solve real life problems using technology, science and engineering. Appropriate for grades 7-9.

Registration by May 15 \$325

Registration after May 15 \$375

NO REFUNDS after June 5th

*Fees include materials, handouts, morning snacks, lunch, and the use of labs and software.

Dr. Rajee Amarasinghe, Professor
